Course Title: Tactical Medic

Dates: Oct 12-17, 2014

Length: 6 Days – 70 hours

Type: Basic

Costs: \$515.00 per student

Start Time: 0800 Hours **End Time:** Evening

Program Description: This course will run in conjunction with an APOST Approved Basic SWAT Course. Students participating in the Tactical Medic Course will be integrated with the law enforcements officers participating in the Basic SWAT Course. Medics will provide support during the SWAT Course's scenarios to capture realistic situations and prepare the medic for integration into tactical teams.

This program is designed to addresses basic tactical concepts, movement, clearing techniques and other related topics to new tactical medical personnel. The Tactical Medic student will also receive training in the following specialty areas; Tactical Combat Casualty Care (T3C), Medical Threat Assessments, Extended Operations, Sensory Deprivation Assessment Methodology, Medicine Across the Barricade, Officer Down/ Rescue and K9 Medicine. This program uses a combination of short PPT lectures combined with scenario based training to enhance skill development and the understanding of the tactical medical role. All scenarios were developed from real world events and instructed by staff that are and have been operators. All scenarios use non-lethal training ammunition in the force on force situations. The course starts off in classroom but moves outside quickly. We work on the basics to latter stages of operations. The course will include a live fire familiarization. Students are expected to be in good-physical condition prior to attending the course.

SPECIAL NOTE:

Students that do not demonstrate proper weapon handling skills, tactics and/or safety may be removed from the training. Live fire exercises are inherently dangerous. Safety violations will be dealt with harshly. We cannot afford to have unsafe personnel in the class. **Students that do not perform to standard may receive a certificate of attendance instead of certification.**

Instructors: Instructors assigned to coordinate and work with these programs have a significant background in law enforcement/military and special weapons training. The instructional staff includes personnel from federal law enforcement, military, former state department and municipal law enforcement agencies. All instructors assigned to teach in these programs attend special instructor training programs in the disciplines assigned.

Standards: Complete all training objectives

Each student needs to bring:

- Wrap around eye protection/ear protection (bring lots of foam hearing protection)
- Body armor/tactical vest and
- Flashlight (weapon mounted and/or handheld) with lots of spare batteries
